Calculator (m/f/d) – Denmark

TL Concept is a well-established manufacturing and contracting company specialising in technical insulation, sheet metal jackets, ventilation ducts and passive fire protection. With many years of experience and approximately 450 skilled employees, we deliver solutions of high German quality to construction projects throughout Europe. TL Concept is experiencing strong growth, and Denmark is one of our strategic growth areas. We have established a Danish company with Danish management. www.tlconcept.eu

We are known for our focus on innovation, precision and a customer-centric approach. Our goal is to create sustainable and efficient solutions that fulfil our customers' demands for quality while ensuring a safe and inspiring work environment for our employees. At TL Concept, we are proud of our strong team culture, where collaboration and development take centre stage. We believe that motivated employees create the best results, which is why we prioritise training and personal development.

We are looking for a dedicated Calculator specialising in technical insulation, cladding, passive fire protection and ventilation to join our team. With us, you will have the opportunity to play a crucial role in upcoming major construction projects.

Location: Denmark

WE OFFER

- **Responsibility and variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality
- **Attractive framework conditions:** Permanent full-time employment under Danish law in a Danish subsidiary that is part of a modern and fast-growing international company
- **A work culture that inspires:** Open communication via our own employee app, flat hierarchies and informal collegial collaboration at eye level combined with regular company events
- **Attractive salary package and additional benefits:** Salary according to qualifications, six weeks' holiday and company pension. Smartphone and possibly company car
- **Further growth and development:** Professional and personal development as well as the opportunity to work on exciting and future-oriented projects throughout Denmark and the rest of Scandinavia
