## Environmental Engineering Project Manager (m/f/d) – Nationwide

### Description

As part of the **TLC Group**, **TLC Umwelttechnik** stands for innovative, efficient, and sustainable solutions in modern environmental technology. With expertise in planning, manufacturing, installation, service, and maintenance, we support municipal and industrial clients in projects related to water and wastewater treatment, mechanical and plant engineering, and customized special solutions—reliably, with a focus on quality, and with an eye toward the future.

To strengthen our team, we are looking for a dedicated **Project Manager (m/f/d)** in the **field of environmental engineering** to join us as soon as possible for full-time assignments throughout Germany.

**Location: Lutherstadt Eisleben**

### What we can offer you in addition to our experience:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top-Notch Benefits & Fair Compensation:** Company cars and smartphones for our field staff, an attractive salary, and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

### Responsibilities

#### What you can expect from us:

- You will be responsible for independently managing projects in the field of environmental technology—from customer service to billing.
- You will coordinate project workflows and work closely with department heads, project managers, and construction managers.
- They manage materials, purchasing, personnel, the vehicle fleet, tools, and machinery to ensure that projects run smoothly.
- They monitor deadlines, quality, performance, productivity, and safety and order on the construction site.
- You can keep track of progress reports, invoices, payment receipts, and project results.

### Qualifications

#### What you bring with you:

### Hiring organization

TLC Umwelttechnik GmbH

### Employment Type

Full-time

### Beginning of employment

as of now

### Industry

Mechanical Engineering

### Job Location

Schloßplatz 3, 06295, Lutherstadt  
Eisleben, Deutschland

### Date posted

1. July 2026

- Several years of experience as a project manager, ideally in the fields of mechanical engineering or environmental engineering
- A strong technical understanding and experience in coordinating complex construction site and project operations.
- A completed technical apprenticeship, advanced training to become a master craftsman or technician, or a college degree, for example in mechanical engineering, environmental engineering, or a related field.
- Strong communication skills, organizational skills, the ability to get things done, and a confident demeanor when interacting with customers and project partners.
- Some leadership experience is a plus and rounds out your profile.

## **Job Benefits**

### **Services:**

- Employer-Sponsored Retirement Plans
- Continuing Education in the Workplace
- Referral Program
- Company events
- Company cell phone
- Company car
- Free parking lot
