Installation Technician / Senior Installation Technician for Energy and Utility Systems (m/f/d)

Description

Welcome to TLC – your next career step with responsibility.

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

Are you technically skilled, enjoy getting your hands dirty, and want to take on responsibility on the construction site? We're looking for a new team member to join our **Energy and Utilities Engineering** division as **an Installer / Lead Installer (m/f/d)**.

Location: Klipphausen/Dresden

Responsibilities

Your tasks will be:

- Assembly and Installation of **Energy and Utility** Systems
- Installation work in the areas of **heating, air conditioning, ventilation, and plumbing (HVAC)**
- Carrying out the work in accordance with technical drawings, plans, and assembly specifications
- Carrying out renovation, expansion, and installation work
- Preparation and Organization of Work on the Construction Site
- Coordination with construction and project management, as well as other trades
- Conducting quality control checks and documenting the work performed
- Support with measurements, commissioning, and acceptance inspections
- **As a senior installer:** Coordinating and providing technical guidance to installers and subcontractors on site
- Ensuring compliance with occupational health and safety requirements

Qualifications

Your profile and our expectations:

- Completed technical or vocational training, e.g., as a **HVAC technician, heating and ventilation installer, pipefitter**, or similar
- Work experience in the field of **energy, utilities, or building services engineering, or in piping construction**
- Experience in installing HVAC systems is a plus
- Proficiency in working with technical drawings and assembly plans
- Independent and solution-oriented way of working
- Sense of Responsibility and Ability to Work in a Team
- **For Lead Installers:** Experience coordinating and supervising installation teams is desirable
- Class B driver's license
