Description

Shaping the Future Together.

TL Concept GmbH is a company operating nationwide in the field of building and manufacturing technology, specializing in technical insulation, ventilation, and environmental technology.

With 280 full-time employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacturing, installation, and maintenance of building systems, and we provide high-quality German solutions for construction projects throughout Europe.

To further develop our management systems, **we are looking for a dedicated Quality Management Representative (QMR) / IMS Representative (m/f/d)** who will serve as the central point of contact between management, the Occupational Safety Specialist (SiFa), branch offices, and construction sites.

Location: Klipphausen near Dresden

What we can offer you in addition to our experience:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top-Notch Benefits & Fair Compensation:** Company cars and smartphones for our field staff, an attractive salary, a company retirement plan, and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

Responsibilities

What you can expect from us:

- Maintenance and Further Development of Management Systems in Accordance with **DIN EN ISO 9001, ISO 14001, and ISO 45001**
- Responsibility for preparing, conducting, and overseeing certification, surveillance, and recertification audits
- Ensuring compliance with legal, regulatory, and standards-based requirements
- Providing support to all branches and construction sites nationwide on issues related to quality, the environment, and occupational safety
- Conducting regular site inspections and internal audits

- Development, maintenance, and optimization of processes, standard operating procedures, and management documentation
- Monitoring and further development of internal standards, regulations, and company policies
- Analysis of deviations, as well as initiation and tracking of corrective and improvement actions
- Preparation of reports, key performance indicators, and management reviews for senior management
- Point of contact for government agencies, customers, certification bodies, and external auditors
- Organization and implementation of training sessions and awareness-raising initiatives
- Close collaboration with management, the safety officer, and the project and construction managers

Qualifications

What you bring with you:

- A successfully completed technical or business apprenticeship or a relevant degree program
- Training to become a Quality Management Representative (QMR) or a comparable qualification is a plus
- Several years of experience in quality management or integrated management systems
- Good knowledge of the **ISO 9001, ISO 14001, and ISO 45001** standards
- Experience in preparing for and supporting certifications and audits
- A structured, independent, and solution-oriented approach to work
- Strong communication skills and a confident demeanor at all levels
- Willingness to travel nationwide on business
- Class B driver’s license

Job Benefits

Services:

- Employer-Sponsored Retirement Plans
- Continuing Education in the Workplace
- Referral Program
- Company events
- Company cell phone
- Company car
- Free parking lot
